

Questions You Have About or Related to Policy Governance  
2-29-2016

Introduction:

The committee charged with implementing Policy Governance within our congregation has accomplished the steps required to prepare for Policy Governance and is now at the point where interacting with the congregation, both to answer questions and further educate members about Policy Governance, is vital to the process of implementation.

In order to accomplish this crucial part of implementation the committee has decided to contact groups within the congregation, as they meet together, and solicit questions in order to prepare for answering questions at larger congregational information and voting meetings.

The questions you have, no matter how you ask them or the perspective you ask them from, are very important to the committee and we ask that you do not hesitate to put your questions to us as exactly as you might be thinking them, but please do remain within the boundaries of, "Love thy neighbor as thyself". If you have more than 4 questions write them on the back or use another copy of this paper.

Answers:

If an answer is not provided to you personally, we will provide the answers in the form of a Frequently Asked Question (FAQ) document at congregational meetings and posted on the website.

Confidentiality:

We are not asking for your name. However, if you want us to have the ability to contact you personally with the answer(s) to your question(s) it would be helpful if you provided contact information for that purpose.
